

МАКРОЕКОНОМСКЕ АНАЛИЗЕ I ТРЕНДОВИ
MACROECONOMIC ANALYSIS AND TRENDS

For Business with no Unknown Variables

The most prestigious and influential domestic professional journal dealing with macroeconomic researches, in the Serbian and English language, has been indispensable source of information, analysis and forecasts for decision makers in the private and public sectors for 17 years.

MAT™ entered in 2011 under a new slogan *For Business with no Unknown Variables* – redesigned and with enriched content, in line with readers' requests and needs. In 2014, we continue the improvement of the contents and further adjustment to modern needs of the public and corporate sectors. This research and analytical project is published under the auspices of the Ministry of Education and Science as a journal for popularization of economics, as well as by the Serbian Chamber of Commerce and Industry as a project of significance to the economy.

MAT™ shall be issued eleven times a year (ten monthly issues and one double issue) in print and electronic format, in the Serbian (print and electronic edition) and English language (electronic edition), and shall bring the following:

- macroeconomic analyses with current trends in all relevant areas: industrial and agricultural production, trade, monetary-credit flows, banking system, public spending, world economic trends, foreign trade relations, foreign exchange rate, wages, prices, investment, grey economy....
- analysis of effects and prospects due to changes in economic trends in the country and abroad
- analysis of impacts of economic and reform policy measures on economic trends, stability and sustainability in the future
- short-term forecasts of key macroeconomic indicators: inflation, industrial production, exports, imports, trade and demand .
- business expectations based on a carefully selected sample and professionally conducted own survey
- swift response to changes in the environment – each month new analyses of specific and current issues
- assessing economic policy, proposing new measures and forecasting future changes in the economic system and conduct of economic policy
- long-term projections of macroeconomic aggregates and indicators in a complex structurally and dynamically interdependent model of development of the overall macroeconomic framework

Each issue of **MAT™** contains a **special supplement** on editorial pages with analyses of the topic of the month, authored by a distinguished representative of an international organization, successful businessman, banker or reputable economist, methodological appendix and original statistical annex with key macroeconomic indicators. Guest authors of **MAT™** thus far have been: **Bogdan Lissovlik**, IMF's permanent representative in Serbia; **Kjell-Morten Johnsen**, President of Foreign Investors Council in Serbia; **Loup Brefort**, World Bank Country Manager for Serbia; and **Michael Schmidt**, Head of the Delegation of German economy for Serbia, Macedonia and Albania, **Gustavo Navarro**, General Manager of Holcim Serbia; **Ružica Stamenković**, registrar at the Agency for Business Registers; **Dragan Nikolić**, General Manager of Tigar Corporation; **Nikola Vujačić**, General Manager of Victoria Group; **Vidosava Džagić**, Vice-President of the Serbian Chamber of Commerce and Industry, **Zoran Ćirović**, President of the Securities Commission and **Costin Borc**, President of the Foreign Investors Council, **Vladimir Čupić**, President of the BoD of Hypo-Alpe-Adria Bank and **Jasna Atanasijević**, Chief Economist of Hypo-Alpe-Adria Bank, the **USAID BEP** team of authors, **Miloš Bugarin**, President of the Serbian Chamber of Commerce, **Saša Kristić**, Adviser to the Project on the Municipal Support Programme (MSP-IPA 2007), **Žarko Galetin**, General Manager of "Produktna berza" AD Novi Sad.
